Sir:

**PETITION FOR SUBMISSION OF DECLARATION FOR PENDING
APPLICATION ON BEHALF OF INVENTORS WHO REFUSE TO
SIGN AND/OR CANNOT BE REACHED**

The present application, pursuant to the most recent action in the case is in condition for allowance, except for a formal matter involving the requirement for a new Declaration. The present application has two named inventors, Jozef Kovac and Raymond L. Knox, both of whom either cannot be reached or are refusing to sign the

new Declaration. A filing fee of \$200.00 under 37 C.F.R. §1.17(g) is submitted herewith. The pertinent facts of the situation are detailed below.

Last Known Address

The last known address for Jozef Kovac is 20 Balmforth Avenue, Danbury, Connecticut 06810. The last known address for Raymond L. Knox is 58 Nashville Road Extension, Bethel, Connecticut 06801.

Statement of Pertinent Facts

The present application is a continuation case associated with earlier-issued U.S. Patent Nos. 6,200,134 and 6,692,251. The parent '134 patent was first filed and lists the current inventors, Jozef Kovac and Raymond L. Knox. That application was filed over eight years ago on January 20, 1998. At the time of the filing of the application that issued into the parent '134 patent, Mr. Kovac and Mr. Knox executed the Declaration attached hereto as Exhibit A. Furthermore, Mr. Kovac and Mr. Knox executed the Assignment that is attached hereto as Exhibit B assigning their rights in the invention and applications related thereto and in and to all patents issued or to be issued thereon to Kerr Corporation. Mr. Kovac and Mr. Knox assigned and transferred unto Kerr Corporation the entire right, title and interest in and to the subject matter disclosed in the application and in and to all letters patent, domestic and foreign, issued or to be obtained thereon. Mr. Kovac and Mr. Knox also authorized and requested the Commissioner for Patents to issue the letters patent granted on that application and all future patents granted upon the subject matter disclosed therein to Kerr Corporation. The U.S. '134 patent issued from the application. The present application is essentially

a continuation of that parent application, with the same specification, disclosure and drawings.

Attached hereto as Exhibit C is a statement under 37 C.F.R. §3.73 by a representative of Kerr Corporation indicating ownership of parent U.S. Patent No. 6,200,134 and all applications and patents as disclosed in the subject matter of U.S. Patent No. 6,200,134.

The present application at issue is directed to the subject matter of parent U.S. Patent No. 6,200,134. The pending application has the same specification, drawings, and other disclosure, as parent U.S. Patent No. 6,200,134. However, due to the chain of pendency of the case and its continuation status, the Patent Office has required a new Declaration to be executed, rather than allowing a copy of the old Declaration from the '134 parent patent that is attached hereto as Exhibit A to be used in the case. Specifically, prior to the issuance of the parent '134 patent, a CIP application was filed claiming priority to parent U.S. Patent No. 6,200,134. That CIP application then eventually issued into a second U.S. Patent No. 6,692,251 and names a common inventor, Mr. Knox, along with a different inventor, Joseph N. Logan. The second U.S. Patent No. 6,692,251 incorporates the earlier parent patent No. 6,200,134 by reference in its entirety.

During the pendency of U.S. Patent No. 6,692,251, the current application was filed and, pursuant to prosecution of the current application, on November 3, 2005, a copy of the executed Declaration for the parent U.S. Patent No. 6,200,134 was filed for the purpose of entry into the case as the executed Declaration. Based upon the most recent action by the Examiner, which is attached hereto as Exhibit D, the Examiner has

indicated that, because the present application has the disclosure of the earlier parent U.S. Patent No. 6,200,134, rather than CIP U.S. Patent No. 6,692,251, then the case requires a newly-executed Declaration, rather than a photocopy of the parent '134 Patent Declaration.

To that end, the undersigned placed a telephone call to both Mr. Knox and Mr. Kovac. The undersigned spoke with Mr. Knox, but did not reach Mr. Kovac by phone. In the phone call, the undersigned confirmed the addresses of both inventors, as Mr. Knox was aware of Mr. Kovac's current address. Following up the telephone call (Knox) and attempt (Kovac), the undersigned sent two letters, attached hereto as Exhibit E, on May 18, 2006, along with the new Declaration, attached hereto as Exhibit F, to be executed by Mr. Knox and Mr. Kovac. Since the undersigned had spoken to Mr. Knox, and had explained the situation, and since U.S. Patent No. 6,200,134 is issued, the undersigned sent simply the new Declaration (Exhibit F) for signature. In the letter to Mr. Kovac, the current situation was explained, since the undersigned had not spoken to Mr. Kovac in person. It is believed that both Mr. Kovac and Mr. Knox are aware of their parent '134 patent and its contents, which is the identical specification subject matter as the current pending application at issue.

The undersigned still did not hear further from Mr. Kovac, but received the attached e-mail information and letter (Exhibit G) from Mr. Knox (while the letter lists a date of May 25, 2001, that appears to be a typo, as the e-mail was sent on May 25, 2006). In the letter from Mr. Knox, Mr. Knox indicates that he believes he is owed money from Demetron (the division of the patent owner, Kerr Corporation, that Mr. Knox had earlier worked for) and makes his cooperation in executing the additional

Declaration dependent upon payment of some monies referenced to events in 2001. Again, the undersigned has received no communication from Mr. Kovac in that regard.

As noted above, the subject matter of the present application, and all patents to issue therefrom, have been assigned to Kerr Corporation by the inventors, and thus the inventors have no ownership rights in the present application.

In follow-up letters on July 3, 2006, the undersigned again sent the letters attached hereto as Exhibit H, along with a copy of the pending application, as well as another copy of the Declaration. Subsequently, on July 5, 2006, the undersigned received a telephone call from Mr. Ray Knox wherein he indicated that he is not inclined to execute the Declaration without some form of compensation from Kerr Corporation. Mr. Knox and Mr. Kovac were earlier employees of Demetron, a division of Kerr Corporation (Kerr), the assignee of the present application. However, no monies are due and owing to them and it is Kerr's position that Kerr is not obligated to pay Mr. Knox or Mr. Kovac further compensation to execute the Declaration herein for a continuation application of a patent owned by Kerr Corporation.

In the telephone conversation with Mr. Knox, he indicated that, in his communications with Mr. Kovac, Mr. Kovac had the Declaration and also was not inclined to sign the document absent some payment, as they are no longer employees of Demetron/Kerr Corporation.

The owner of the present application submits that the inventors clearly understand what they are being asked to do in signing the Declaration and essentially refuse to do so. They want an additional payment to sign documents for an application that they have assigned to Kerr Corporation. No such payment is due to them or

otherwise owed to the inventors. The inventors have been presented with the Declaration twice and also with a copy of the application and they are well aware of the subject matter to which that Declaration pertains pursuant to their issued parent U.S. Patent No. 6,200,134. Furthermore, with the July 3, 2006 letter, the application was again submitted to the inventors for signature of the Declaration. Because of the refusal of Mr. Knox to execute the Declaration without further compensation or payment (a demand that the assignee, Kerr Corporation, is not inclined or obligated to meet), Mr. Knox has effectively refused to execute the necessary application papers. The lack of any communication or any response by Mr. Kovac, who has received the papers, indicates his refusal to execute the necessary application papers. The assignee of the application, through the efforts of the undersigned, has been diligent in trying to get each of the inventors to execute the necessary application papers, to no avail.

Since execution of the application papers, and specifically the Declaration, is necessary to complete the present application, which has been otherwise allowed, the refusal of the inventors is detrimental to and will result in irreparable damage to the assignee, Kerr Corporation. As such, the present Petition to accept the Declaration under 35 U.S.C. §118 and/or 37 C.F.R. §1.47 is necessary to preserve the rights of Kerr Corporation and/or to prevent irreparable damage. Submitted herewith as Exhibit I is a copy of the Declaration executed on behalf of the inventors by Edward R. Shellard, who is President of Kerr Corporation, the assignee of the present application.

If further facts are required by the Examiner or the Patent Office, or if any other questions arise, the Examiner or another representative of the Patent Office is certainly encouraged to telephone the undersigned to discuss the same.

Applicants know of no fees other than the \$200.00 fee submitted which are due herein with this submission. However, if any charges or credits are necessary, please apply them to Deposit Account 23-3000.

Respectfully submitted,
WOOD, HERRON & EVANS, L.L.P.

Attorney Docket No. DEME-10/214

DECLARATION, POWER OF ATTORNEY, AND PETITION

a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

APPARATUS AND METHOD FOR CURING MATERIALS

WITH RADIATION

the specification of which (check one below):

(X) is attached hereto.

() was filed on _____ as Application Serial No. _____ or Express Mail No. _____, Serial No. not yet known, and was amended on _____ (if applicable).

() was filed on _____ as PCT International Application No. _____, and as amended under PCT Article 19 on _____ (if any).

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations §1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

ASSIGNMENT OF INVENTION AND PATENTS THEREON

WHEREAS, We, **Josef Kovac**, of **20 Balmforth Avenue, Danbury** in the State of **Connecticut**, and **Raymond L. Knox** of **58 Nashville Road Extension, Bethel** in the State of **Connecticut**, have invented a new and improved **Apparatus and Method for Curing Materials With Radiation**, as fully disclosed in an application for Patent so entitled and executed by us on even date herewith preparatory to obtaining Letters Patent of the United States therefor; and whereas, **Kerr Corporation**, a corporation organized under the Laws of the State of **Delaware** and having its principal office at **1717 West Collins Avenue, Orange California 92867** desires to acquire the entire interest in and to the subject-matter disclosed in said application and in and to all patents issued or to be issued thereon.

NOW, THEREFORE, to all whom it may concern, be it known that, for and in consideration of the sum of One Dollar to us in hand paid, and other good and valuable consideration, the receipt of which is hereby acknowledged, we have sold, assigned and transferred, and by these presents do sell, assign and transfer unto the said **Kerr Corporation** our entire right, title and interest in and to the subject-matter disclosed in said application and in and to all Letters Patent Domestic and Foreign issued or to be obtained thereon, including all rights and interests with priority rights under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperative Union, European Patent Convention, Common Market Convention, or any other Convention or Union for each country of said Convention or Union; and we do hereby authorize and request the Commissioner of Patents to issue the Letters Patent granted on said application and all future patents granted upon the subject-matter disclosed therein to the above named Assignee, its legal representatives and assigns.

Witness my hand this 19th day of January, 1998.

STATEMENT UNDER 37 CFR 3.73(b)

Applicant/Patent Owner: Kerr Corporation on behalf of Jozef Kovac and Raymond L. Knox

Application No. / Patent No. / Control No.: 10/656,490 Filed/Issue Date: 9/5/03

Entitled: APPARATUS AND METHOD FOR CURING MATERIALS WITH RADIATION

Kerr Corporation a corporation
(Name of Assignee) (Type of Assignee: corporation, partnership, university, government agency, etc.)

states that it is:

- 1. ☒ the assignee of the entire right, title, and interest; or
- 2. ☐ an assignee of less than the entire right, title and interest
(The extent (by percentage) of its ownership interest is _____ %)

In the patent application/patent identified above by virtue of either:

A. ☒ An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel 9137, Frame 0798, or a true copy of the original assignment is attached.

OR
B. ☐ A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:

- 1. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.
- 2. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.
- 3. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.

☐ Additional documents in the chain of title are listed on a supplemental sheet.

As required by 37 CFR 3.73(b)(1)(i), the documentary evidence of the chain of title from the original owner to the assignee was, or concurrently is being, submitted for recordation pursuant to 37 CFR 3.11.

(NOTE: A separate copy (i.e., a true copy of the original assignment document(s)) must be submitted to Assignment Division in accordance with 37 CFR Part 3, to record the assignment in the records of the USPTO. See MPEP 302.08)

The undersigned (whose title is supplied below) is authorized to act on behalf of the assignee.

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Ex parte Quayle

This application is in condition for allowance except for the following formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Clarification Required Regarding Priority and Inventorship

The first line of the specification indicates that the present application is a Continuation of 09/632,260 (filed 8/4/2000 and patented 6,292,251 on 2/17/2004) and a Continuation-in-Part (CIP) of 09/009,205 (filed 8/4/2000 and patented 6,200,134 on 2/13/2001). A review of the application indicates that it has the disclosure of the earlier application 09/009,205, rather than the same disclosure of the later application 09/632,260. Since the present disclosure is different from the parent application 09/632,260, it cannot be properly called a "Continuation" of the parent application, but rather a "Continuation-in-Part" (MPEP 201.07 "The disclosure presented in the continuation must be the same as that of the original application.").

Consequently, since the present application is a CIP of the parent (09/632,260) it requires a newly executed oath or declaration rather than a photocopy of the parent's declaration (See MPEP 602.05(a)).

Additionally, if there is a change in the inventorship in a continuing application filed under 37 CFR 1.53(b)(1) then the continuing application must be accompanied by a request for changing the inventorship, otherwise it must be made filing a request under 37 CFR 1.48(a) (See MPEP 201.03(E) (last paragraph page 200-9)). In the present application, the originally filed declaration listed Kovac and Knox as the inventors. If there is a change in that inventorship, then it must be corrected through 37 CFR 1.48(a).

The current Quayle action is based on the understanding that applicant has priority to the earlier application (09/009,205) through the parent (09/632,260) based in-part on the parent's statement incorporating by reference the earlier application at column 1, lines 5-10 of 6,692,251. Additionally, it is understood that the correct inventorship has been named (or will be corrected), otherwise, rejections under 35 U.S.C. 102(f) and (g) may apply.

In Summary

- Since the present application is a CIP of the parent 09/632,260 a new oath or declaration is required identifying the present application.
- If Kovac and Knox are not the inventors of the presently claimed invention, then a request under 37 CFR 1.48(a) is required (see MPEP 201.03(E)).
- The first line of the specification must be amended to properly reflect the status of the present application as a Continuation-in-Part of the parent.

Art Unit: 3732

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).

Any inquiry concerning this communication should be directed to **Ralph Lewis** at telephone number **(571) 272-4712**. Fax (571) 273-8300. The examiner works a compressed work schedule and is unavailable every other Friday. The examiner's supervisor, Kevin Shaver, can be reached at (571) 272-4720.

Re: U.S. Application Serial No. 10/656,490
Filed September 5, 2003
APPARATUS AND METHOD FOR CURING MATERIALS WITH RADIATION
Our File: DEME/10CO

Dear Ray:

Following up our telephone conversations, please find enclosed herewith a letter from Ed Shellard at Kerr Corporation regarding your execution of the enclosed Declaration. As we discussed, this Declaration refers to the above pending U.S. patent application, which is a continuation of the earlier parent patent U.S. Patent No. 6,200,134, on which you and Joe Kovac were the inventors. The Patent Office has required this due to the filing of the application in a chain which also included your latter U.S. Patent No. 6,692,251, on which you were named inventor with Joseph Logan. As such, the Patent Office requires this Declaration. Please execute the Declaration on the appropriate signature line and date the document as well. I note that the application can merely be signed and does not have to be notarized.

Mr. Raymond Knox

Re: U.S. Application Serial No. 10/656,490
Filed September 5, 2003
**APPARATUS AND METHOD FOR CURING MATERIALS WITH
RADIATION**
Kovac et al.
Our File: DEME/10CO

Dear Jozef:

You may recall that we worked together several years ago in the work that our firm did with Demetron regarding filing a patent application naming yourself and Ray Knox as inventors, which ultimately issued into U.S. Patent No. 6,200,134. Ray Knox was also later involved in a continuation application which issued into U.S. Patent No. 6,692,251. Demetron has also filed a continuation application based upon your earlier Patent No. 6,200,134, which pursues claims of a slightly different scope, although the detailed disclosure is identical to the earlier 6,200,134 patent. You and Ray Knox are again named as inventors in the continuation case, as is proper.

Pursuant to proceeding with that continuation case, and the chain of cases in which it is filed, the Patent Office has determined that another Declaration needs to be executed. To that end, please find enclosed a Declaration which can be signed and dated where noted on your signature line. Oftentimes, it is suitable to use the old Declaration you

Mr. Jozef Kovac

May 18, 2006

Page 2 of 2

signed. However, in this case, the USPTO would like a newly-executed Declaration for the continuation case.

I had called the number that we had on file for you, but, since it was older, I did not get an answer. I do not know if it was a correct phone number. Therefore, I have forwarded this to the address we have of record for you in Danbury, Connecticut.

I note that I have also spoken to Ray Knox and have forwarded the same Declaration to Ray for signature.

If you could, please execute the document on your signature line and date it as well, and kindly send it back to me for filing in the case so that we can proceed with prosecution of the continuation application. I note that the Declaration just needs to be signed. It does not have to be notarized in any way.

If you have any questions, please certainly do not hesitate to give me a call at the above-referenced number.

Very truly yours,

A handwritten signature in black ink, appearing to read "Kurt A. Summe", with a long horizontal flourish extending to the right.

DECLARATION, POWER OF ATTORNEY, AND PETITION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled:

APPARATUS AND METHOD FOR CURING MATERIALS WITH RADIATION

the specification of which (check one below):

- ☐ is attached hereto.
- ☒ was filed on September 5, 2003 as Application Serial No. 10/656,490 or Express Mail No. ___, and was amended on ___ (if applicable).
- ☐ was filed on ___ as PCT International Application No. ___, and as amended under PCT Article 19 on ___ (if any).

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose to the United States Patent and Trademark Office all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations §1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, §119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

Prior Foreign Application(s)

Priority Claimed?

Subject: Attention Kurt A Smme Esq

7/3/2006

Hi Kurt

May 25 2001

I have received the package of documents for signature.

There is however an issue that I wish to get resolved, and now with a request for my signature it is a good time to see if the issue can be brought to a satisfactory conclusion.

While working at Demetron I was offered a part time job by Dr Joshua Friedman, the founder of Demetron, designing UV equipment. The agreement in the resignation letter was that I would stay employed at Demetron until the end of March 2001, to help select a replacement for me. The arrangement with Dr Friedman that I would start working April 1.

At the beginning of March I was escorted from the Demetron building, for no good reason, and I lost a months pay. It is my belief that this action took place because Dr Friedman was considered to be a competitor, however in the 5 years that I have worked for Dr Friedman we have never worked on any equipment that was in any way competition for Kerr/Sybron.

Kurt, Because of the way that I was treated by Dr Shellard and Mr Tomassi I will not deal with them, but if the issue is not resolved I will delay signing the patent documents.

I think that it is fair to expect to be paid for the month of March 2001 and interest thru today. On receipt of this settlement I will sign the document and return it to you.

I hope that you can help get a resolution for me and I thank you in advance for your efforts.

Regards

Raymond Knox.

Our File: DEME/10CO

Dear Ray:

Following up our letter of May 18, 2006, and your subsequent e-mail letter of May 25, 2006, it is Demetron's position that this issue regarding a Declaration of an application that has already been assigned to Demetron is separate from any other issues that you may need to still resolve with Demetron as your former employer.

Accordingly, we would respectfully request that you execute the Declaration papers and return them to me so that they may be filed in the case. We include another copy of the Declaration, as well as a copy of the pending application to which the Declaration is related. If there are other issues that you would like to speak with me about, certainly do not hesitate to contact me at the above-referenced telephone number.

Very truly yours,

Kurt A. Summe
